PROFILE

Full Stack Developer with hands-on experience in building and optimizing web applications using the **MERN stack**. Known for delivering practical solutions and enhancing user experiences. Skilled in collaborating within dynamic teams and committed to continuous growth in the latest technologies. Seeking to contribute technical expertise to impactful projects in a forward-thinking environment.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Next.js, TailwindCSS

Backend: Node.js, Express.js, MongoDB, MySQL

Tools & Platforms: GitHub, Postman

Other: REST APIs

PROFESSIONAL EXPERIENCE

Software Development Engineer - 1, Kapiva 09/2023 – present | Bangalore

- **Implemented Role-Based Access Control (RBAC)** for Kapiva's internal doctors dashboard, managing permissions for modules and submodules based on roles. Integrated **SSO**, JWT authentication, refresh tokens, and developed the frontend **Login Page**, improving security and access management.
- **Developed a dynamic AOV Widget** for Kapiva's website to **improve consumer perception** of value by showcasing product variants with savings, price per unit, and optimal pack sizes. Enabled dashboard-driven updates for real-time adjustments, reducing drop-offs and supporting **higher conversion rates**.
- **Built an Order Confirmation Page Dashboard** for the business team to dynamically manage content, including images, videos, and alerts. This page was pivotal in Kapiva's campaign to boost app usage, contributing to a **2X increase in app installs** and earning the **Key Project Achievement Award**.
- **Fixed phone number validation** on the Checkout Page to handle pasted or autofilled numbers with country codes, resulting in a **50% reduction** in orders with **incorrect phone numbers** and significantly enhancing data accuracy for deliveries.
- **Optimized WebEngage integration** by improving event tracking from both the website and server-side, leading to an **18-20% increase in user engagement metrics**.
- **Improved the Kapiva Coin Frontend**, enhancing the display of user transaction history and expiries, which boosted **retention rates by 20-25%**.
- **Customized a Targeted Splash Screen** for US users, leading to a **15% reduction in bounce rates** through better audience targeting.
- **PDF Generation** from consultation forms, cutting manual effort by **30%** and improving efficiency in record-keeping.
- Developed an API for Lead Generation using Nodemailer, increasing response rates and conversions by **20%**.

EDUCATION

Full Stack Web Development, Masai School (Full Time) 10/2022 – 07/2023 | Bangalore

Bachelor of Engineering (Mechanical), MMCOE 10/2016 – 11/2020 | Pune

AWARDS

Key Project Achievement Award, Kapiva  2024
